

*JT and Colleen,
his AMIB Respite Worker*

AMIB's Respite Services: One Family's Story

Fourteen-year old JT is an active teenager who loves the outdoors, sports, and trips to the park. He also requires total activities of daily living assistance (ADL) due to his visual impairment, as well as his developmentally disability. For three years, it has been an honor for AMIB to send fully-trained direct care workers to JT's home twice a week, courtesy of the Bixel Respite Fund.

AMIB workers greet JT as he gets off his school bus and then help him put away his book bag and wash his hands. After preparing and serving him a snack, AMIB workers get down to the business of fun! As AMIB workers help JT enjoy his favorite interests, JT's family is able to assist his siblings with their homework and other after school activities.

AMIB has made a difference in the lives of JT and his family. Trust us to help you and your loved one. For more information on AMIB's respite services and the Bixel Respite Fund, please contact:
